

Hello!

I hope your school year is going well. I'd like to invite you to **Career Day 2020, which occurs on Thursday, March 5, 2020**. Trident Technical College (TTC) invites high school seniors, juniors, and sophomores to this once-a-year event which will enable your students to explore career opportunities on campus. For over three hours (**9:00 am – 12:30 pm**), the students get a glimpse into many different career fields through visiting TTC programs and labs, experiencing simulations of real world job activities, and speaking with instructors in the programs of their choice.

Just a few of the things students will be able to do include the following:

- Visit TTC's brand new 218,000 square foot South Carolina Aeronautical Training Center and experience our aeronautical and advanced manufacturing programs
- Visit TTC's Nursing and Science Building, and experience what it's like to deal with a patient in a critical situation through the simulation lab, like a patient in cardiac arrest, or one giving birth
- Experience forecasting weather on television in the Media Center
- Discover the various methods of welding
- Meet and ask questions of current TTC students who are pursuing their degrees in the areas in which your students are interested
- Meet some of TTC's industry partners in the community
- Purchase food from TTC student organizations at a minimal cost

Normally, when students come for campus tours, programs aren't usually accessible because classes are in session. The same goes for availability of instructors. However, on Career Day, the campus throws its doors open for high school students to visit any program they like, see what's involved in that career field (and in many cases - enjoy a demonstration), and speak with the faculty and TTC students. We encourage students to visit as many programs as they possibly can. In addition, representatives from Admissions and Financial Aid will be available to answer questions and provide guidance.

TTC is very happy to welcome high school students and school personnel to our annual Career Day! Please make plans to join us for this special day, **Thursday, March 5, 2020, from 9:00 am – 12:30 pm**, and allow your students to explore their opportunities. The registration form is linked below. If you have any questions, please contact Rene Gutierrez at [rene.gutierrez@tridenttech.edu](mailto:rene.gutierrez@tridenttech.edu) (843) 574-6455.
