The TTC Pandemic Re-Entry Plan, prepared by the college’s COVID-19 Task Force, and updated and maintained by the college’s COVID-19 Response Team, serves as a guide to protect the safety of students and employees as we reopen campuses and sites. The task force used the three phases in the South Carolina Department of Administration Re-entry Plan for State Employees to develop TTC’s seven-stage plan. Guidance for when and how to return to workplaces, as well as health and safety measures to implement, are being updated frequently by the CDC, and state agencies such as the Governor’s Office, and SCDHEC. We will follow guidance from these sources and modify our plan as needed to reduce the risk of infection from COVID-19.

Guidelines for All Stages
The College is implementing the following guidelines and procedures, in accordance with Federal, State, and local regulations and guidance, and informed by industry best practices. These procedures may change frequently as the college receives new information and guidance. Please check the COVID-19 Updates page in the Portal frequently. Cabinet, along with the COVID-19 Response Team, monitors positive COVID-19 cases on campus on a weekly basis via the report provided by the TTC Environmental Health and Safety Manager, and makes decisions concerning any changes to learning and work environments based on this data.

Training
All employees will be required to complete COVID-19 training prior to returning to work. This training (Safety Short: Coronaviruses and COVID-19) is located in Skillsoft which is accessed through the Portal. This training is required for full and part-time employees including adjunct instructors. Please contact Tanya Baham, TTC Environmental Health & Safety Manager, at tanya.baham@tridenttech.edu for any questions concerning this training.

Social distancing and protective equipment
Effective Aug. 18, 2021, masking is required for everyone, regardless of vaccination status, while indoors on campus. Masks are not required outside or when individuals are alone in their offices or work spaces. This policy is subject to change at any time based on changes in transmission rates in our area and guidance from federal and state health agencies. The college strongly encourages unvaccinated employees and students to get vaccinated as soon as possible to protect themselves and others.

Social distancing for students – The Division of Education will determine how to adjust class sizes, instructional modes, and schedules to comply with recommended social distancing guidelines. If you work in this division, talk with your supervisor about preparations specific to you and your areas.

Social distancing for employees - Division and department leaders will adapt recommended social distancing guidelines for their own areas.

Sanitation – Facilities will follow sanitation processes in accordance with CDC guidelines.

Use and disinfection of common and high-traffic areas – Common areas will begin reopening June 7. As they reopen, Facilities will implement a disinfection plan. High-traffic areas such as restrooms will be disinfected in accordance with CDC guidelines.

College Related Travel – Non-essential college related travel for employees and students is suspended until
further notice. (As of 8/9/21) Travel requests for essential travel must be submitted to the Vice President for approval.

Employees traveling outside the U.S. - Employees are encouraged to avoid non-college related travel, but particularly travel outside the United States. The CDC recommends you pay close attention to the situation at your international destination before traveling outside the United States.

Temperature checks – Temperature checks are not feasible for the college as a whole to implement. However, specific areas of the college may be governed by state and federal laws for operating, such as food service areas and the Wellness Center, and therefore may have to implement temperature checks in those areas in accordance with those laws.

Testing, isolating, and contact tracing – The college must maintain the privacy of employee and student health information. Employees and students are asked to self-identify, self-isolate, and inform their supervisor or instructor if they test positive for COVID-19. The college may provide DHEC with this information. The college has convened a COVID-19 Response Team to determine and enact appropriate reporting procedures. The Environmental Health and Safety Manager is responsible for maintaining the Positive COVID-19 Case database and reports this data to Cabinet and the college on a weekly basis.

Below is a list of procedures and screening tools created and maintained by the COVID-19 Response Team (#COVID19Response).

Employee COVID-19 Reporting and Exposure Procedures - Appendix A
Student COVID-19 Procedure for Testing Positive, Having Exposure, or Experiencing Symptoms – Appendix B
Student Return to Campus Screening Tool – Appendix C
TTC COVID-19 Pre-Campus Attendance Screening Tool – Appendix D

TTC Re-entry Stages:

Stage 1: Campuses closed to public. Public Safety remains.
- Campuses and sites remain closed to the public.
- Essential staff returns to campus work (FMO and IT as needed).
- Staff campus according to building safety and management needs.
- Online instruction.
- Most faculty and staff telecommuting. Limited mail delivery.

Stage 2: Prep for Opening Campuses and Sites.
- Campuses and sites remain closed to public.
• Custodial and groundskeeping staff return to ready for reopening to the public.
• Extensive cleaning.
• FMO installs plexiglass barriers at front counters and other appropriate spaces.
• FMO and IT coordinate moving keypads and card readers to outside the barriers as necessary.
• Departments prepare computer labs, testing centers, and library to meet mandated social distancing guidelines.
• FMO rearranges common spaces to support mandated social distancing requirements.
• FMO marks floors for 6’ separation where lines normally form.
• Use app that calls patrons to the “window” when it’s their turn.
• Limited vendor and contractor access.
• Receiving Department opens to receive shipments.
• Mail delivery returns to normal.

Stage 3: Employees begin to return to Campuses and sites.
• Limited rotating staff returns to campus.
• Telecommuting continues where applicable and feasible.
• Common areas closed.
• Normal vendor access permitted.

Stage 4: Campuses and sites open to the public.
• Campuses and sites may open to the public.
• As required, some faculty and staff may return to work on campus on a rotating basis in order to provide social distancing.
• Telecommuting continues whenever possible and feasible with business operations.
• Common areas remain closed.
• Strongly consider accommodations for personnel who are members of a vulnerable population.
• Employees should self-identify as a member of a vulnerable population or a family member of a vulnerable population.
• Accommodations will be determined by HR along with employee’s supervisor and Vice President.

Stage 5: In person instruction resumes.
• Certain classes may resume face-to-face instruction with appropriate social distancing guidelines in place.
• The College Center can operate under moderate physical distancing protocols on a case-by-case basis.
• Essential travel resumes with supervisor approval.

Stage 6: Most Employees Return to Campus. All employees are asked to return to campus a minimum of two days per week, but employees may work on campus more than two days as needed to maintain business operations.
• Rotating schedules continue to allow for appropriate social distancing.
• Accommodations, if approved, continue for personnel who are members of a vulnerable population.

Stage 7: TTC Returns to normal operations. (Currently in this stage)
• The Wellness Center can open with physical distancing and sanitation protocols as determined by Wellness
Center Director.

- Non-essential travel is currently suspended until further notice (8/9/21)
DeVetta Hughes, Associate Vice President for Human Resources (AVPHR), will serve as the point of contact for employee questions/concerns related to potential or verified exposures to COVID-19. Privacy and confidentiality will be maintained to the extent possible. Please do not share your health information, or the health information of another employee, with anyone other than your supervisor or Human Resources (HR). HR will notify all employees identified as a close contact of someone with a confirmed or suspected case of COVID-19.

Contact Information: Email: DeVetta.Hughes@tridenttech.edu Phone: (843) 574-6199

If you or a member of your household tests positive for COVID-19, immediately notify your supervisor, complete the Employee COVID-19 Reporting tool in Etrieve, and do not report to campus. Human Resources will contact you directly regarding the scenarios below.

For all of the scenarios below the following rules apply to isolation and/or quarantine periods:

For the first required isolation or quarantine period, HR will work with your supervisor to determine your eligibility to telecommute. If you have subsequent incidents that require you to isolate or quarantine, you will use accrued leave (sick, annual, comp time, leave without pay, or non-scheduled faculty non-work days). You must contact your supervisor and HR for clearance prior to returning to work. TTC urges all employees to follow CDC and DHEC guidance regarding quarantine and isolation. TTC strongly recommends all employees contact their healthcare providers for medical advice.

Employee who has positive COVID test results

If you test positive for COVID-19, complete the TTC Employee COVID-19 Reporting tool in Etrieve, immediately notify your supervisor, and do not report to campus. You will be required to stay home from work for a period of 10 days.

You must contact the Associate Vice President for Human Resources when you are ready to return or begin working on campus.

If cleared, the Associate Vice President for Human Resources will notify your supervisor that you can return or begin working on campus.

Employee who has received the COVID Vaccine

Individuals who receive the COVID-19 vaccine may experience side effects. If you experience side effects from the COVID-19 vaccine, you are not required to quarantine. You may continue to report to campus.

If you are fully vaccinated and have close contact with someone who tests positive for COVID-19, you may continue to report to campus as long as you do not have symptoms. If you begin to experience symptoms, you must stay home from work and continue to follow the quarantine guidance listed in the scenarios below.

If you are not yet fully vaccinated (less than two weeks since the final dose of a vaccination) and begin to experience symptoms, you are required to stay home from work and continue to follow the quarantine guidance listed in the scenarios below.
The CDC and DHEC recommend fully vaccinated people get tested 5-7 days after their exposure, even if they don’t have symptoms, and wear a mask indoors in public for 14 days following exposure or until their test result is negative. TTC strongly recommends all employees contact their healthcare providers for medical advice.

**Employee who has been in close contact or lives with someone who tests positive for COVID-19**

If you are fully vaccinated with no symptoms, you are not required to quarantine. The CDC and DHEC recommend fully vaccinated people get tested 5-7 days after their exposure, even if they don’t have symptoms and wear a mask indoors in public for 14 days following exposure or until their test result is negative.

If you are fully vaccinated with symptoms or unvaccinated and have been in close contact with someone who tests positive for COVID-19, you must immediately notify your supervisor and HR and stop reporting to campus. You will be required to stay home from work for 7 to 14 days after your last contact with the positive person. If you cannot stay separated from the positive person, the quarantine could be a minimum of 24 days. TTC will review the quarantine dates on a case-by-case basis.

If you are unvaccinated, or fully vaccinated with symptoms, and are on campus when you learn you have been in close contact with someone who tests positive for COVID-19, you must immediately notify your supervisor and HR, leave campus and not return until you have completed the quarantine.

**Employee experiencing symptoms who has not received COVID test results**

If you are experiencing symptoms of COVID-19 and waiting on test results, immediately notify your supervisor and HR, and do not report to campus. You will be required to stay home from work for a period of 14 days or until you receive a negative COVID-19 test result and your symptoms have resolved. DHEC recommends anyone experiencing symptoms of COVID-19 be evaluated by their healthcare provider and tested for COVID-19 if indicated.

**Employee’s household member(s) experiencing symptoms who has not received COVID test results**

If you live in the same household as someone who is experiencing symptoms and waiting on COVID test results, you may remain at work as long as you do not have symptoms.

If the ill person tests positive, you must follow the directions for **Employee who lives with someone who tests positive for COVID-19** above.

**Employee lives with someone who has been in close contact with someone who displays symptoms consistent with COVID-19 or tests positive (Contact of a Contact)**

You may continue to report to work as long as you do not have symptoms.

**Employee who has previously tested positive for COVID**

If you have previously tested positive for COVID-19 and are later exposed to COVID-19 again, the following quarantine protocols will be followed:

- If the exposure is within 90 days of the onset of COVID-19 symptoms or the date of a positive COVID-19 test and you DO NOT have new symptoms, no quarantine is required.
- If the exposure is within 90 days of the onset of COVID-19 symptoms or the date of a positive COVID-19 test and you DO have new symptoms, you must follow the **Employee who has previously tested positive for COVID** instructions above.
Employee in clinical setting wearing proper PPE who has been in close contact\textsuperscript{ii} with someone who tests positive for COVID-19

If you are fully vaccinated\textsuperscript{i} with no symptoms you may continue reporting to work.

If you are unvaccinated and wearing the proper PPE (Personal Protective Equipment) when exposed to someone who tests positive for COVID-19, you MAY be eligible for reduced length or possible exemption from quarantine. Quarantine requirements will be determined on a case-by-case basis upon consultation with supervisor/dean.

Proper PPE includes use of ALL of the following during exposure to a COVID-19 positive individual:

- Respirator or Facemask (Cloth masks are NOT considered PPE)
  - N95 Mask
  - Surgical mask
- Eye Protection
  - Face shield
  - Goggles
- Gloves
- Gowns or Protective Clothing

<table>
<thead>
<tr>
<th>Employee must have received training in the following:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• When to use PPE</td>
</tr>
<tr>
<td>• What PPE is necessary</td>
</tr>
<tr>
<td>• How to properly don, use and doff PPE to prevent self-contamination</td>
</tr>
<tr>
<td>• How to properly dispose of or disinfect and maintain PPE</td>
</tr>
<tr>
<td>• The limitations of PPE</td>
</tr>
</tbody>
</table>

Internal Actions (for a positive case)

Human Resources will notify employees if they have or may have been exposed to COVID-19 at work.

The Environmental Health and Safety Manager will notify DHEC of the employee who tested positive and the employees potentially exposed to that employee.

The Office of Human Resources will report the positive test to OSHA if necessary under the OSHA guidelines.

Additional Information

If you become sick with COVID-19 symptoms during a quarantine period, you must contact HR immediately. You should seek evaluation through one of the telehealth options available on the DHEC COVID-19 webpage (www.scdhec.gov/covid19) or from your healthcare provider. Let the provider evaluating you know that you have been exposed to someone with COVID-19.

It is important to understand the difference between quarantine and isolation. A person who has been exposed, but who is not yet sick, is asked to quarantine. A person who has tested positive, or presumed by a doctor to be positive, for COVID-19, is asked to isolate.

Relevant DHEC guidelines for quarantine are as follows:

1. You should not leave the quarantine location at any time, unless there is a medical emergency or requested by your healthcare provider.
2. If you or anyone in your quarantine location requires emergency medical treatment for any conditions, you should call 911 for an ambulance. If you call 911, immediately tell the 911 operator that you are in quarantine due to COVID-19.
3. You should avoid contact with anyone outside the home.
4. You should avoid contact with individuals in your home as much as possible and maintain good personal hygiene at all times. If contacted by DHEC, follow all directions provided to you by DHEC to help prevent disease transmission.

Please note that DHEC investigates potential COVID-19 exposures and may contact you. If so, please follow whatever additional recommendations DHEC offers.

This is a rapidly evolving situation and we understand how difficult this is. We want everyone to stay healthy and safe, and we urge you to follow the DHEC guidelines listed above for the protection of yourself, your family and others.

For additional information, rely on trusted sources of information such as South Carolina Department of Health and Environmental Control (DHEC) [https://www.scdhec.gov](https://www.scdhec.gov) or the Centers for Disease Control and Prevention (CDC) [https://www.cdc.gov](https://www.cdc.gov) websites.

1 Fully vaccinated is defined as two weeks after receiving the second of a two-dose series or two weeks after receiving a single-dose vaccine.

1 Close contact is defined by TTC as being within 6 feet of an affected person for more than 10 minutes.
APPENDIX B

COVID-19 Reporting Procedure for Students:
Testing Positive, Having Exposure, or Experiencing Symptoms

A student who tests positive for COVID-19, has exposure to COVID-19, or is experiencing symptoms of COVID-19, must complete the [COVID-19 Self-reporting Tool](#) now available on the college’s COVID-19 web page. Based on the student’s answers to questions on the form, the student will automatically be notified of the appropriate action to take.

Students should not share their health information, or the health information of other students with anyone other than their instructor(s). The COVID-19 Response Team will notify class members if they have or may have been exposed to COVID-19 at Trident Technical College (TTC).

The Environmental Health & Safety Manager (EHSM) or designated back-up will make a final determination as to if additional actions and notifications are needed.

The EHSM or designated back-up will send all appropriate notifications to DHEC.

If the student was in contact with a member of the general public in a lab setting, the student will need to provide the contact information of the contact on the [COVID-19 Reporting Tool](#). The EHSM or designated back-up will notify the member of the general public of the exposure.

The quarantined student(s) may be asked to complete the Trident Technical College COVID-19 Student Return to Campus Screening Tool at the end of their quarantine/isolation. If requested, the quarantined student(s) must submit the completed form to their current course instructor(s) via email prior to physically returning to campus.

**Student’s Reporting Responsibility**

**Exposures**

If you have an exposure or are experiencing symptoms please fill out the [COVID-19 Self-reporting Tool](#) for Students located on the TTC COVID-19 web page.

**Positive Results**

Positive results must always be reported to the COVID-19 Response Team, via the [COVID-19 Self-reporting Tool](#) for Students, regardless of vaccination status, and will result in quarantine.

The COVID-19 Response Team will contact the student and instructor directly regarding isolation/quarantine information.

**Student who has positive COVID test results**

If you test positive for COVID-19, immediately fill out the [COVID-19 Self-reporting Tool](#) for Students and do not report to campus. You will be required to remain off campus for a period of 10 days. TTC urges all students to
follow CDC and DHEC guidance regarding quarantine and isolation. TTC strongly recommends all students contact their healthcare providers for medical advice.

You may be asked to complete the Trident Technical College COVID-19 Student Return to Campus Screening Tool at the end of your quarantine/isolation by your instructor(s). If requested, you must submit the completed form to your current course instructor(s) via email prior to physically returning to campus. TTC will not retain copies of the submitted Trident Technical College COVID-19 Student Return to Campus Screening Tool.

**Student who has received the COVID Vaccine**

Individuals who receive the COVID-19 vaccine may experience side effects. If you experience side effects from the COVID-19 vaccine, you are not required to quarantine. You may continue to report to campus.

If you are fully vaccinated\(^\text{i}\) and have close contact\(^\text{ii}\) with someone who tests positive for COVID-19, you may continue to report to campus as long as you do not have symptoms. If you begin to experience symptoms, you must stay off campus and continue to follow the quarantine guidance listed in the scenarios below.

If you are not yet fully vaccinated (less than two weeks since the final dose of a vaccination) and begin to experience symptoms, you are required to stay off campus and continue to follow the quarantine guidance listed in the scenarios below.

The CDC and DHEC recommend fully vaccinated\(^\text{i}\) people get tested 5-7 days after their exposure, even if they don’t have symptoms, and wear a mask indoors in public for 14 days following exposure or until their test result is negative. TTC strongly recommends all students contact their healthcare providers for medical advice.

**Student who has been in close contact\(^\text{iv}\) or lives with someone who tests positive for COVID-19**

Fully vaccinated\(^\text{i}\) students with no symptoms are not required to quarantine. The CDC and DHEC recommend fully vaccinated people get tested 5-7 days after their exposure, even if they don’t have symptoms and wear a mask indoors in public for 14 days following exposure or until their test result is negative.

Fully vaccinated\(^\text{i}\) students with symptoms and unvaccinated students who have been in close contact\(^\text{ii}\) with someone who tests positive for COVID-19 must immediately complete the COVID-19 Self-reporting Tool for Students and stop reporting to campus. They will be required to stay off campus for at least 14 days after their last contact with the positive person. If you cannot stay separated from the positive person, the quarantine could be a minimum of 24 days. TTC urges all students to follow CDC and DHEC guidance regarding quarantine and isolation. TTC strongly recommends all students contact their healthcare providers for medical advice.

**Student experiencing symptoms who has not received COVID test results**

If you are experiencing symptoms of COVID-19 and waiting on test results, immediately complete the COVID-19 Self-reporting Tool for Students and do not report to campus. You will be required to stay off campus for 14 days or until you receive a negative COVID-19 test result and your symptoms have resolved. TTC urges all students to follow CDC and DHEC guidance regarding quarantine and isolation.

TTC strongly recommends all students contact their healthcare providers for medical advice.
**Student’s household member(s) experiencing symptoms who has not received COVID test results**

If a student lives in the same household as someone who is experiencing symptoms and waiting on COVID test results, the student may report to campus as long as they do not have symptoms themselves.

If the ill person tests positive, the student must follow the directions for **Student who lives with someone who tests positive for COVID-19** above.

**Student lives with someone who has been in close contact with someone who displays symptoms consistent with COVID-19 or tests positive (Contact of a Contact)**

You may continue to report to campus as long as you do not have symptoms.

**Student in clinical setting wearing proper PPE who has been in close contact with someone who tests positive for COVID-19**

If you are fully vaccinated with no symptoms you may continue to report to campus.

An unvaccinated student who is wearing the proper PPE (Personal Protective Equipment) when exposed to someone who tests positive for COVID-19 MAY be eligible for reduced length or possible exemption from quarantine. Quarantine requirements will be determined on a case by case basis upon consultation with supervisor/dean.

**Proper PPE includes use of ALL of the following during exposure to a COVID-19 positive individual:**

<table>
<thead>
<tr>
<th>• Respirator or Facemask (Cloth masks are <strong>NOT</strong> considered PPE)</th>
<th>Employee must have received training in the following:</th>
</tr>
</thead>
<tbody>
<tr>
<td>o N95 Mask</td>
<td>• When to use PPE</td>
</tr>
<tr>

</tr>
<tr>
<td>• Gloves</td>
<td></td>
</tr>
<tr>
<td>• Gowns or Protective Clothing</td>
<td></td>
</tr>
</tbody>
</table>

**Student who has previously tested positive for COVID**

If you have previously tested positive for COVID-19 and are later exposed to COVID-19 again, the following quarantine protocols will be followed:

- If the exposure is within 90 days of the onset of COVID-19 symptoms or the date of a positive COVID-19 test and you **DO NOT** have new symptoms, no quarantine is required.
• If the exposure is within 90 days of the onset of COVID-19 symptoms or the date of a positive COVID-19 test and you DO have new symptoms, you must remain off campus for a period of 14 days.

Additional Information

If you become sick with COVID-19 symptoms during a quarantine period, you must immediately complete the COVID-19 Self-reporting Tool for Students. You should seek evaluation through one of the telehealth options available on the DHEC COVID-19 webpage (www.scdhec.gov/covid19) or from your healthcare provider. Let the provider evaluating you know that you have been exposed to someone with COVID-19.

It is important to understand the difference between quarantine and isolation. A person who has been exposed, but who is not yet sick, is asked to quarantine. A person who has tested positive, or presumed by a doctor to be positive, for COVID-19, is asked to isolate.

Relevant DHEC guidelines for quarantine are as follows:

5. You should not leave the quarantine location at any time, unless there is a medical emergency or requested by your healthcare provider.

6. If you or anyone in your quarantine location requires emergency medical treatment for any conditions, you should call 911 for an ambulance. If you call 911, immediately tell the 911 operator that you are in quarantine due to COVID-19.

7. You should avoid contact with anyone outside the home.

8. You should avoid contact with individuals in your home as much as possible and maintain good personal hygiene at all times. If contacted by DHEC, follow all directions provided to you by DHEC to help prevent disease transmission.

Please note that DHEC investigates potential COVID-19 exposures and may contact you. If so, please follow whatever additional recommendations DHEC offers.

This is a rapidly evolving situation and we understand how difficult this is. We want everyone to stay healthy and safe, and we urge you to follow the DHEC guidelines listed above for the protection of yourself, your family and others.

For additional information, rely on trusted sources of information such as South Carolina Department of Health and Environmental Control (DHEC) https://www.scdhec.gov or the Centers for Disease Control and Prevention (CDC) https://www.cdc.gov websites.
APPENDIX C

Trident Technical College COVID-19
Student Return to Campus Screening Tool

Student:

If you have tested positive for COVID-19, you may be requested to complete the following screening tool at the end of your quarantine/isolation for clearance to return to campus. If requested, please submit the completed tool to your current course instructor(s) via email prior to physically returning to campus.

<table>
