

OBSERVATION WORK SHEET RADIOLOGIC TECHNOLOGISTS

Applicant instructions: Students must document 8 hours of observation in diagnostic radiologic technology. All observation hours must be completed in a hospital facility; hours may be distributed between more than one facility. No more than 2 of the 8 hours may be spent in a specialty area such as CT, Mammography, etc.

A separate form must be completed for each facility and signed by the radiologic technologist that was observed.

Applicant's Name

Student ID #

This applicant has completed observation hours as follows (please document type and number of hours observed):

_____ Diagnostic Radiology	_____ Cardiac - Interventional Radiography (CI)
_____ Computed Tomography (CT)	_____ Bone Densitometry
