

TRIDENT TECHNICAL COLLEGE

BERKELEY CAMPUS RENOVATION PROJECT

TO SUPPORT TRANSPORTATION AND LOGISTICS TRAINING

The \$37 million renovation and construction project at Trident Technical College's Berkeley Campus is progressing toward an early 2025 groundbreaking. Renovations to the existing 74,000-square-foot facility, with 11,500-square-feet of new construction, will transform the 40-plus year old campus into a state-of-the-art training center.

With the deepest port on the South Atlantic coast, the Charleston area offers major opportunities in the transportation and logistics sector. Trident Tech students seeking careers as truck drivers, diesel mechanics, and logistics professionals will be uniquely qualified to thrive in the jobs of the future.

Liollio Architecture designed the building, and Thompson Turner Construction will carry out the construction work, tentatively scheduled for January 2025–August 2026. During renovation, the CDL program will be temporarily located on Thornley Campus, and the Veterinary Technology and Cosmetology programs will remain on campus. Other classes normally held on the Berkeley Campus are available at other TTC campuses, and many are also offered online. The Truist Transportation and Logistics Center will be part of the renovated facility.

The project will increase student capacity from 1,000 to 3,000.

PROJECT HIGHLIGHTS

- High-bay vocational training classrooms
- STEM-related classrooms and labs
- Flexible classroom/lab space
- Updated student commons area
- Expanded restroom facilities
- Training space for Continuing Education/non-credit courses
- New roof
- Upgraded mechanical, electric and plumbing systems
- New fire protection system

EDUCATIONAL OFFERINGS

- Commercial Drivers License (CDL)
- Diesel Mechanics
- Logistics
- Cosmetology
- Veterinary Technology
- General Education courses
- Continuing Education/non-credit courses

It is the policy of Trident Technical College that no discrimination on the grounds of sex, race, color, disability, religion, gender, gender identity, gender expression, sexual orientation, age, marital or family status, services in the uniformed services (as defined in state and federal law), veteran status, political opinions, genetic information, pregnancy, childbirth or related medical conditions, national origin or any other factor protected under applicable federal, state and local civil rights laws, rules and regulations (collectively referred to as "Protected Status") will exist in any area of the college.
