(i) Those prices;

(ii) The intention to submit an offer; or

(iii) The methods or factors used to calculate the prices offered.

(2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in the case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law; and

(3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.
(b) Each signature on the offer is considered to be a certification by the signatory that the signatory-

(1) Is the person in the offeror's organization responsible for determining the prices being offered in this bid or proposal, and that the signatory has not participated and will not participate in any action contrary to paragraphs (a)(1) through (a)(3) of this certification; or

You warrant and represent that your offer identifies and explains any unfair competitive advantage you may have in competing for the proposed contract and any actual or potential conflicts of interest that may arise from your participation in this competition or your receipt of an award. The two underlying principles are (a) preventing the existence of conflicting roles that might bias a contractor’s judgment, and (b) preventing an unfair competitive advantage. If you have an unfair competitive advantage or a conflict of interest, the state may withhold award. Before withholding award on these grounds, an offeror will be notified of the concerns and provided a reasonable opportunity to respond. OFFEROR’S RESPONSIBILITY: Additionally, each offeror shall fully acquaint himself with conditions relating to the scope and restrictions attending the execution of the work under the conditions of this solicitation. Useful information may be available at: http://www.scemd.org/myscgovweb/weather.html

SUBMITTING CONFIDENTIAL INFORMATION (AUG 2002): (An overview is available at www.procurement.sc.gov) For every document Offeror submits in response to or with regard to this solicitation or request, Offeror must separately mark with the word "CONFIDENTIAL" every page, or portion thereof, that Offeror contends contains information that is exempt from public disclosure because it is either (a) a trade secret as defined in Section 30-4-40(a)(1), or (b) privileged and confidential, as that phrase is used in Section 11-35-410. For every document Offeror submits in response to or with regard to this solicitation or request, Offeror must separately mark with the words "TRADE SECRET" every page, or portion thereof, that Offeror contends contains a trade secret as that term is defined by Section 39-8-20 of the Trade Secrets Act. For every document Offeror submits in response to or with regard to this solicitation or request, Offeror must separately mark with the word “PROTECTED” every page, or portion thereof, that Offeror contends is protected by Section 11-35-1810. All markings must be conspicuous; use color, bold, underlining, or some other method in order to conspicuously distinguish the mark from the other text. Do not mark your entire response (bid, proposal, quote, etc.) as confidential, trade secret, or protected! If your response, or any part thereof, is improperly marked as confidential or trade secret or protected, the State may, in its sole discretion, determine it nonresponsive. If only portions of a page are subject to some protection, do not mark the entire page. By submitting a response to this solicitation or request, Offeror (1) agrees to the public disclosure of every page of every document regarding this solicitation or request that was submitted at any time prior to entering into a contract (including, but not limited to, documents contained in a response, documents submitted to clarify a response, and documents submitted during negotiations), unless the page is conspicuously marked "TRADE SECRET" or "CONFIDENTIAL" or "PROTECTED", (2) agrees that any information not marked, as required by these bidding instructions, as a "Trade Secret" is not a trade secret as defined by the Trade Secrets Act, and (3) agrees that, notwithstanding any claims or markings otherwise, any prices, commissions, discounts, or other financial figures used to determine the award, as well as the final contract amount, are subject to public disclosure. In determining whether to release documents, the State will detrimentally rely on Offeror's marking of documents, as required by these bidding instructions, as being either "Confidential" or "Trade Secret" or "PROTECTED". By submitting a response, Offeror agreesto defend, indemnify and hold harmless the State of South Carolina, it’s officers and employees, from every claim, demand, loss, expense, cost, damage or injury, including attorney’s fees, arising out of or resulting from the State withholding information that Offeror marked as "confidential" or "trade secret" or "PROTECTED". (All references to S.C. Code of Laws.)
SUBMITTING REDACTED OFFERS (FEB 2007): You are required to mark the original copy of your offer to identify any information that is exempt from public disclosure. You must do so in accordance with the clause entitled “Submitting Confidential Information.” In addition, you must also submit one complete copy of your offer from which you have removed any information that you marked as exempt, i.e., a redacted copy. The information redacted should mirror in detail the information marked as exempt from public disclosure. The redacted copy should (i) reflect the same pagination as the original, (ii) show the empty space from which information was redacted, and (iii) be submitted on magnetic media. (See clause entitled "Magnetic Media – Required Format.") Except for the redacted information, the CD must be identical to the original hard copy. Portable Document Format (.pdf) is preferred. Background

Trident Technical College (TTC) is one of sixteen technical colleges that comprise the State Board for Technical and Comprehensive Education. TTC offers more than 150 programs of study in a variety of technical and career areas, as well as programs for those who plan to continue their education at a four-year college. Additionally, the Division of Continuing Education and Economic Development promotes economic development through customized programs and consulting services to improve the competitiveness and quality of area businesses. The college has a current enrollment of over 17,000 students on its four campuses and three sites, of which the major concentration is located on the College’s Main Campus. The Division of Continuing Education and Economic Development brings an additional 10,000 students to the TTC campuses annually. TTC’s entire student body is commuter based.

Since 1964, the Division of Continuing Education and Economic Development has served as a separate, but integral, part of Trident Technical College. The core missions of the College’s Continuing Education Division are economic development and employment related-training. The College serves a broad spectrum of clients in the Charleston tri-county area, which is comprised of Berkeley, Charleston, and Dorchester counties. The Division promotes economic development with a focus on short-term and long-term open enrollment public courses, contractual training programs, and collaborative services via government agencies for those seeking training that leads to employment. Training ranges from computer and soft skills to highly technical manufacturing processes, healthcare, efficient energy use, and safety and environmental compliance. The Continuing Education Division is proud of its long-term training relationships with local businesses, industries, and community organizations as well as established partnerships with local and state economic development entities.

Current Environment

Current Business Environment

The Division of Continuing Education and Economic Development reports approximately $5M in annual revenue. This includes revenue from open enrollment classes and programs for public students and contractual training classes and programs customized for business and industry clients. The Division consists of five major programming areas that include Manufacturing, Industrial and Construction Trades, Health Care, Personal Enrichment, and Corporate and Information Technology.

Current Technical Environment

The current student and financial management system runs on a semester based, for-credit, academic business model while the Division operates on a rolling enrollment, non-semester based model.
**Business problem to be solved**

The Continuing Education Division’s ability to manage its existing business, capture new opportunities, and provide first rate customer service is significantly constrained due to the functional limitations of the current student and financial management software. Presently, enrollment and financial reports require manual data extraction, manipulation, and formatting before analysis can begin. Currently, the Division must extract all data from the system, manually adjust, and then analyze. Division staff that are responsible for generating revenue are spending their time extracting and manipulating data instead of being out in the community cultivating business and developing new programs. For the Division to be able to excel in customer service, program management, and operational efficiency, it needs a new student and financial management software system.

The Division does not have the capability to easily and quickly review the following types of programmatic and Divisional information: revenue, direct costs, customer demographics, operating margins, current and trending enrollments, and course cancellation rates. No business units within the Division - Operations, Marketing, Programming, Sales, and Leadership - can make timely business decisions based on accurate data and efficient reporting tools.

Customer purchasing trends are moving more to online searches and e-commerce transactions. The Division’s current online registration system does not provide a robust user interface that allows the customer to search, make a buying decision, and purchase in a timely and effective manner. Currently the user must navigate a labyrinth of screens and effectuate over 27 clicks to purchase one course.

As mentioned above, all reporting for the Division requires manual “data mining” and manual manipulation for analysis. Processes currently in place are all workarounds or custom procedures created by the College’s programming team to support the Division’s reporting needs. The Division’s process for creating its website and catalog is completely separate from the current system. Another example is catalog production that requires data entry in two different locations and manual formatting. The Division’s new student and financial management software solution must be compatible with two other, separate, software platforms. On the frontend, the system must integrate with the Continuing Education website that uses the Cascade Content Management System. A combination of the website and the student and financial management software will support the user experience expected in today’s e-marketing environments such as product search, account registration and maintenance, and shopping cart technology for business transactions. On the backend, specific data updates must be compatible with information pulled from the Ellucian College database. These include uploading student information, such as account holds to the new business software. As well as the capability to pull financial information from the new system and in turn use that to physically update the Ellucian College system. The processes to make these updates should require minimal manual effort when uploading and downloading within the new student and financial management software.

**Desired Outcome**

The College’s desired outcome is to acquire and implement the best and most feasible cloud-based student and financial management software system. The College will not consider a non-hosted solution.

**Technical Requirements**

Offerors solution must meet the following technical requirements:
Offeror must:

- Not require any direct access to TTC's Active Directory Servers.
- Not require TTC to upload any User Passwords.

- Include relevant information on standards compliance (such as ISO 27001) and any completed organizational information technology audits.

**IMPORTANT INSTRUCTIONS:**

Offeror must complete and submit the completed Functional Requirements: System Capability Worksheet as required in solicitation section PART 4 - IV. Information for Offerors to Submit, Proposal Contents, 3.0 Technical Proposal, 3.1.

In order for the College to determine the best overall solution for its requirements, many of the specifications listed require narrative discussion/detailed information on how Offeror’s proposed solution meets or accomplishes the specific task/requirement. Where requested, provide your response and any other additional information (such as production release date, etc.) in the field directly below the specific task/requirement listed. If your proposed solution does not currently meet or accomplish the specific task/requirement listed, please denote in your response whether or not the specific task/requirement is under development and its anticipated production release date, or if the specific task/requirement is not under development/planned for inclusion.
Some tasks/requirements are presented in question format, requiring either a YES or NO answer. Some task/requirements requiring a YES or NO answer will require further explanation and will be denoted where applicable.

Only answer “Yes” to specific tasks/requirements if the specific task/requirement is a current production released feature. Do not answer “Yes” if the item is in “beta” or scheduled for production release at a later date. The College is not seeking any beta or non-production solutions.

If your solution does not meet specific task/requirement features, but does have a potential solution in beta development or non-production release status, provide your answer as “No”. You may offer written discussion pertaining to when the specific beta or non-production release feature is expected to be production released.

If you answer “Yes” to specific tasks/requirements indicating that your solution provides a specific feature, you certify that the feature is a current production released feature.

Should you answer “Yes”, denoting that your solution does meet specific tasks/requirements and the feature is a current production released feature, and it is determined that the feature is in fact not a production released feature, your offer will be determined nonresponsive.

The absence of a response will be considered as an indication that the offeror cannot meet the requirement of the specification.

EVALUATION FACTORS – PROPOSALS (JAN 2006): Offers will be evaluated using only the factors stated below. Evaluation factors are stated in the relative order of importance, with the first factor being the most important. Once evaluation is complete, all responsive offerors will be ranked from most advantageous to least advantageous.

All proposals will be initially reviewed by for purposes of determining responsiveness. Any proposal that does not meet the material and/or essential requirements of the State will be subject to disqualification pursuant to S.C. Statute, Regulations and Interpretative Authorities. Two sets of evaluation criteria are included in this RFP. Each proposal received will be evaluated against the Phase I set of criteria indicated below which does not include the demonstration of product technical capability. The three highest score offerors will be asked to demonstrate the product technical capability of their solutions in Phase II—Demonstration of Product Technical Capability. Each offeror asked to provide a demonstration of product technical capability will be evaluated against the Phase II set of criteria indicated below.

A. PHASE I

Proposals will be evaluated by an Evaluation Panel on the basis of the following criteria, which are listed in order of importance:

Selecting the top Offerors for Demonstration of Product Technical Capability

Based on the evaluation of the above criteria each Offeror will receive a total score. The College will not set an arbitrary numerical value as the cut-off criteria to designate the most qualified proposals from the least qualified proposals. The College will allow the mathematical results of the total sum for each Offeror to establish ranking of the three highest scores which will designate which Offerors continue to the RFP Demonstration of Product Technical Capability Phase of the solicitation.

B. PHASE II -DEMONSTRATION OF PRODUCT TECHNICAL CAPABILITY

The top three responsive and responsible Offerors after the Phase I evaluations will be required to give a demonstration of their proposal to clarify or verify the contents and the representations made therein. Demonstrations given by an Offeror under this section are permitted and communication by the Offeror with the College or its employees during a demonstration will not violate the restrictions applicable to Offerors. The presentation will be made ‘in person’ at the Trident Technical College Main Campus located in North Charleston, South Carolina, and any travel expenses incurred by the Offeror are the Offeror’s sole responsibility. The time allotted per individual Offeror shall not exceed two (2) hours. The Demonstrations will tentatively be conducted between the dates 01/19/15 – 01/23/15. Offerors should reserve those dates. The College will notify Offerors as quickly as possible to schedule specific dates and times.

Evaluators may ask questions pertaining to the Offeror’s demonstration. The Offeror’s answers are restricted to statements of facts. Offerors will not be allowed or permitted to introduce new information. Negotiation is not permitted at this stage in the procurement process and an Offeror may not change its proposal.

b. The Offeror may be required to document an answer if such a written clarification is determined to be in the best interest of the State.

c. The live demonstration should be conducted in a straightforward manner in order to secure a clear and meaningful understanding of the Offeror’s proposed system.

d. The live demonstration is designed to satisfy the evaluation panel’s need for clarification and understanding of the information that was provided in the Offeror's written proposal. Therefore, the Offeror may neither ask questions nor receive preliminary assessments on its proposal from the members of the panel.

e. Offerors will be required to furnish all equipment, items, and services they need to present their demonstration. TTC will provide only power and Internet access.

Attendees at the live demonstration session should include the Offeror’s key personnel.
The highest Total Scorer in Phase II will be the apparent Winner, subject to validation by the College’s Procurement Officer. Upon completion of the demonstration, each of the three (3) Offerors will be evaluated on the following criteria:

(h) Safeguarding Information. Without limiting any other legal or contractual obligations, Contractor agrees to implement and maintain reasonable and appropriate administrative, physical, and technical safeguards (including without limitation written policies and procedures) for protection of the security, confidentiality, and integrity of the government information in its possession. Upon request by using governmental unit, Contractor shall confirm Contractor’s compliance with this section in writing signed by Contractor’s most senior executive responsible for information technology security.

(i) Actions Following Disclosure. Immediately upon learning of a compromise or improper use of government information (hereinafter “discovery”), Contractor shall take such action as may be necessary to preserve forensic evidence and eliminate the cause of the compromise or improper use. As soon as practicable, but no later than twenty-four hours after discovery, Contractor shall notify using governmental unit of the compromise or improper use, including a description of the circumstances of the use or compromise. As soon as practicable after discovery, Contractor shall provide the using governmental unit all information necessary to enable the using governmental unit to fully understand the nature and extent of the compromise or improper use. If a compromise or improper use is caused in whole or in part by the act or omission of Contractor, its employees, workmen, servants, agents, or anyone directly or indirectly employed by them or anyone for whose acts Contractor may be liable, that is not in accordance with the terms of this contract or applicable law, Contractor shall: (1) provide any legally required notification to third parties affected by a compromise if legally required to be provided to such parties by Contractor, and if not (e.g., if required of using governmental unit), Contractor shall reimburse using governmental unit for the cost of providing such notifications; (2) pay costs and expenses for at least two years of identity theft monitoring services (including without limitation, credit monitoring) and identity theft restoration services for any such affected individuals receiving notice where such services are appropriate given the circumstances of the incident and the
nature of the information compromised; and (3) pay any related fines or penalties imposed on the using governmental unit by a government authority.

(j) Survival & Remedy. All the obligations imposed by this paragraph are material. The obligations of this section shall survive termination or expiration of the contract. Without limiting any rights the using governmental unit may have, and notwithstanding any other term of this contract, Contractor agrees that using governmental unit may have no adequate remedy at law for a breach of Contractor’s obligations under this clause and therefore the using governmental unit shall be entitled to pursue equitable remedies in the event of a breach of this clause.

SERVICE PROVIDER SECURITY ASSESSMENT QUESTIONNAIRE (TTC 2014)

The Contractor must demonstrate that programs, policies and procedures are in place to securely collect, manage, store, process and access all government information (as defined in the clause titled “Information Security”) that is collected or created as a result of the Contractor’s performance of the work. In order for the State to accurately evaluate the strength and viability of the Contractor’s security policies, procedures and practices related to data security, usage and privacy, Offerors must provide a thorough and complete written response to the Service Provider Security Assessment Questionnaire (“Response to SPSAQ”) attached to this Solicitation.

the information provided in Offeror’s Response to SPSAQ; (ii) agrees to provide the Using Governmental Unit with prompt notice of any material variation in operations from that reflected in the Response to SPSAQ; and (iii) agrees that any material deficiency in operations from those as described in the Response to SPSAQ will be deemed a material breach of the contract.

SUBCONTRACTOR – IDENTIFICATION (TTC 2014)

If you intend to subcontract, at any tier level, with another business for any portion of the work and that portion either (1) exceeds 10% of your cost, (2) involves access to any “government information,” as defined in the clause entitled “Information Security,” if included, or (3) otherwise involves services critical to your performance of the work (err on the side of inclusion), your offer must identify that business and the work which they are to perform. Identify potential subcontractors by providing the business name, address, phone, taxpayer identification number, and point of contact. In determining your responsibility, the state may contact and evaluate your proposed subcontractors.

CONTRACTOR’S LIABILITY INSURANCE (MAR 2013):

(a) Contractor shall procure from a company or companies lawfully authorized to do business in South Carolina and with a current A.M. Best rating of no less than A: VII, and maintain for the duration of the contract, insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work and the results of that work by the contractor, his agents, representatives, employees or subcontractors. (b) Coverage shall be at least as broad as:

1. (1) Commercial General Liability (CGL): Insurance Services Office (ISO) Form CG 00 01 12 07 covering CGL on an “occurrence” basis, including products-completed operations, personal and advertising injury, with limits no less than $1,000,000 per occurrence. If a general aggregate limit applies, the general aggregate limit shall be twice the required occurrence limit. This contract shall be considered to be an “insured contract” as defined in the policy.

2. (2) Auto Liability: ISO Form Number CA 00 01 covering any auto (Code 1), or if Contractor has no owned autos, hired, (Code 8) and non-owned autos (Code 9), with limits no less than $1,000,000 per accident for bodily injury and property damage.

3. (3) Worker’s Compensation: As required by the State of South Carolina, with Statutory Limits, and Employer’s Liability Insurance with limit of no less than $1,000,000 per accident for bodily injury or disease.

General liability coverage can be provided in the form of an endorsement to the Contractor’s insurance at least as broad as ISO Form CG 20 10 11 85 if a later edition is used.

(c) For any claims related to this contract, the Contractor’s insurance coverage shall be primary insurance as respects the State, every applicable Using Governmental Unit, and the officers, officials, employees and volunteers of any of them. Any insurance or self-insurance maintained by the State, every applicable Using Governmental Unit, or the officers, officials, employees and volunteers of any of them, shall be excess of the Contractor’s insurance and shall not contribute with it.

(d) Prior to commencement of the work, the Contractor shall furnish the State with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this section. All certificates are to be received and approved by the State before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor’s obligation to provide them. The State reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by this section, at any time.

(e) Should any of the above described policies be cancelled before the expiration date thereof, notice will be delivered in accordance with the policy provisions. In addition, the Contractor shall notify the State immediately upon receiving any information that any of the coverages required by this section are or will be changed, cancelled, or replaced.

(f) Contractor hereby grants to the State and every applicable Using Governmental Unit a waiver of any right to subrogation which any insurer of said Contractor may acquire against the State or applicable Using Governmental Unit by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to effect this waiver of subrogation, but this provision applies regardless of whether or not the State or Using Governmental Unit has received a waiver of subrogation endorsement from the insurer.
(g) Any deductibles or self-insured retentions must be declared to and approved by the State. The State may require the Contractor to purchase coverage with a lower deductible or retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.

(h) The State reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

CONTRACTOR PERSONNEL (JAN 2006): The Contractor shall enforce strict discipline and good order among the Contractor’s employees and other persons carrying out the Contract. The Contractor shall not permit employment of unfit persons or persons not skilled in tasks assigned to them.

CONTRACTOR’S OBLIGATION – GENERAL (JAN 2006):
The contractor shall provide and pay for all materials, tools, equipment, labor and professional and non-professional services, and shall perform all other acts and supply all other things necessary, to fully and properly perform and complete the work. The contractor must act as the prime contractor and assume full responsibility for any subcontractor’s performance. The contractor will be considered the sole point of contact with regard to all situations, including payment of all charges and the meeting of all other requirements.

DEFAULT (JAN 2006):
(a)(1) The State may, subject to paragraphs (c) and (d) of this clause, by written notice of default to the Contractor, terminate this contract in whole or in part if the Contractor
 fails to-
(i) Deliver the supplies or to perform the services within the time specified in this contract or any extension;

(ii) Make progress, so as to endanger performance of this contract (but see paragraph (a)(2) of this clause); or

(iii) Perform any of the other material provisions of this contract (but see paragraph (a)(2) of this clause).

(2) The State’s right to terminate this contract under subdivisions (a)(1)(ii) and (1)(iii) of this clause, may be exercised if the Contractor does not cure such failure within 10 days (or more if authorized in writing by the Procurement Officer) after receipt of the notice from the Procurement Officer specifying the failure.

(b) If the State terminates this contract in whole or in part, it may acquire, under the terms and in the manner the Procurement Officer considers appropriate, supplies or services similar to those terminated, and the Contractor will be liable to the State for any excess costs for those supplies or services. However, the Contractor shall continue the work not terminated.

(c) Except for defaults of subcontractors at any tier, the Contractor shall not be liable for any excess costs if the failure to perform the contract arises from causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include (1) acts of God or of the public enemy, (2) acts of the State in either its sovereign or contractual capacity, (3) fires, (4) floods, (5) epidemics, (6)quarantine restrictions, (7) strikes, (8) freight embargoes, and (9) unusually severe weather. In each instance the failure to perform must be beyond the control and without the fault or negligence of the Contractor.

(d) If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform, unless the subcontracted supplies or services were obtainable from other sources in sufficient time for the Contractor to meet the required delivery schedule.

(e) If this contract is terminated for default, the State may require the Contractor to transfer title and deliver to the State, as directed by the Procurement Officer, any (1) completed supplies, and (2) partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (collectively referred to as “manufacturing materials” in this clause) that the Contractor has specifically produced or acquired
for the terminated portion of this contract. Upon direction of the Procurement Officer, the Contractor shall also protect and preserve property in its possession in which the State has an interest.

(f) The State shall pay contract price for completed supplies delivered and accepted. The Contractor and Procurement Officer shall agree on the amount of payment for manufacturing materials delivered and accepted and for the protection and preservation of the property; if the parties fail to agree, the Procurement Officer shall set an amount subject to the Contractor’s rights under the Disputes clause. Failure to agree will be a dispute under the Disputes clause. The State may withhold from these amounts any sum the Procurement Officer determines to be necessary to protect the State against loss because of outstanding liens or claims of former lien holders.

(g) If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the State, be the same as if the termination had been issued for the convenience of the State. If, in the foregoing circumstances, this contract does not contain a clause providing for termination for convenience of the State, the contract shall be adjusted to compensate for such termination and the contract modified accordingly subject to the contractor’s rights under the Disputes clause.

(h) The rights and remedies of the State in this clause are in addition to any other rights and remedies provided by law or under this contract.

FORCE MAJURE: TTC. The contractor shall not be liable for any excess costs if the failure to perform the contract arises out of causes beyond the control and without the fault or negligence of the contractor. Such causes may include, but are not limited to acts of god or of the public enemy, acts of the government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather but in every case the failure to perform must be beyond the control and without the fault or negligence of the contractor. If the failure to perform is caused by default of a subcontractor, and if such default arises out of causes beyond the control of both the contractor and subcontractor, and without the fault or negligence of either of them, the contractor shall not be liable for any excess costs for failure to perform, unless the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the contractor to meet required delivery schedule.

INDEMNIFICATION -- THIRD PARTY CLAIMS (NOV 2011): Notwithstanding any limitation in this agreement, and to the fullest extent permitted by law, Contractor shall defend and hold harmless Indemnities for and against any and all suits or claims of any character (and all related damages, settlement payments, attorneys’ fees, costs, expenses, losses or liabilities) by a third party which are attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property arising out of or in connection with the goods or services acquired hereunder or caused in whole or in part by any act or omission of contractor, its subcontractors, their employees, workmen, servants, agents, or anyone directly or indirectly employed by them or anyone for whose acts any of them may be liable, regardless of whether or not caused in part by an Indemnitee; and whether or not such claims are made by a third party or an Indemnitee; however, if an Indemnitee’s negligent act or omission is subsequently determined to be the sole proximate cause of a suit or claim, the Indemnitee shall not be entitled to indemnification hereunder. Contractor shall be given timely written notice of any suit or claim. Contractor’s obligations hereunder are in no way limited by any protection afforded under workers’ compensation acts, disability benefits acts, or other employee benefit acts. This clause shall not negate, abridge, or reduce any other rights or obligations of indemnity which would otherwise exist. The obligations of this paragraph shall survive termination, cancelation, or expiration of the parties’ agreement. This provision shall be construed fairly and reasonably, neither strongly for nor against either party, and without regard to any clause regarding insurance. As used in this clause, “Indemnities” means the State of South Carolina, its instrumentalities, agencies, departments, boards, political subdivisions and all their respective officers, agents and employees. [07-7B100-2]

INTELLECTUAL PROPERTY INFRINGEMENT (JAN 2006) (a) Without limitation and notwithstanding any provision in this agreement, Contractor shall, upon receipt of notification, defend and indemnify the State, its instrumentalities, agencies, departments, boards, political subdivisions and all their respective officers, agents and employees against all actions, proceedings or claims of any nature (and all damages, settlement payments, attorneys’ fees (including inside counsel), costs, expenses, losses or liabilities attributable thereto) by any third party asserting or involving an IP right related to an acquired item. State shall allow Contractor to defend such
claim so long as the defense is diligently and capably prosecuted. State shall allow Contractor to settle such claim
so long as (i) all settlement payments are made by Contractor, and (ii) the settlement imposes no non-monetary
obligation upon State. State shall reasonably cooperate with Contractor's defense of such claim. (b) In the event
an injunction or order shall be obtained against State's use of any acquired item, or if in Contractor's opinion, the
acquired item is likely to become the subject of a claim of infringement or violation of an IP right, Contractor shall,
without in any way limiting the foregoing, and at its expense, either: (1) procure for State the right to continue to
use, or have used, the acquired item, or (2) replace or modify the acquired item so that it becomes non-infringing
but only if the modification or replacement does not adversely affect the specifications for the acquired item or its
use by State. If neither (1) nor (2), above, is practical, State may require that Contractor remove the acquired item
from State, refund to State any charges paid by State therefor, and take all steps necessary to have State released
from any further liability. (c) Contractors obligations under this paragraph do not apply to a claim to the extent (i)
that the claim is caused by Contractor's compliance with specifications furnished by the State unless Contractor
knew its compliance with the State's specifications would infringe an IP right, or (ii) that the claim is caused by
Contractor's compliance with specifications furnished by the State if the State knowingly relied on a third party's
IP right to develop the specifications provided to Contractor and failed to identify such product to Contractor. (d)
As used in this paragraph, these terms are defined as follows: "IP right(s)" means a patent, copyright, trademark,
trade secret, or any other proprietary right. "Acquired item(s)" means the rights, goods, or services furnished under
this agreement. "Specification(s)" means a detailed, exact statement of particulars such as a statement prescribing
materials, dimensions, and quality of work. (e) Contractor's obligations under this clause shall survive the
termination, cancellation, rejection, or expiration of this Agreement.

LICENSES AND PERMITS (JAN 2006): During the term of the contract, the Contractor shall be responsible for
obtaining, and maintaining in good standing, all licenses (including professional licenses, if any), permits,
inspections and related fees for each or any such licenses, permits and /or inspections required by the State,
county, city or other government entity or unit to accomplish the work specified in
this solicitation and the contract.

OWNERSHIP OF DATA & MATERIALS (JAN 2006): All data, material and documentation either prepared for the
state pursuant to this contract shall belong exclusively to the State.

PRICE ADJUSTMENT - LIMITED - AFTER INITIAL TERM ONLY (JAN 2006): Upon approval of the Procurement
Officer, prices may be adjusted for any renewal term. Prices shall not be increased during the initial term. Any
request for a price increase must be received by the Procurement Officer at least ninety (90) days prior to the
expiration of the applicable term and must be accompanied by sufficient documentation to justify the increase. If
approved, a price increase becomes effective starting with the term beginning after approval. A price increase
must be executed as a change order. Contractor may terminate this contract at the end of the then current term if
a price increase request is denied. Notice of termination pursuant to this paragraph must be received by the
Procurement Officer no later than fifteen (15) days after the Procurement Officer sends contractor notice rejecting
the requested price increase.

PRICE ADJUSTMENTS – LIMITED BY CPI “All Items” (JAN 2006): Upon request and adequate justification, the
Procurement Officer may grant a price increase up to, but not to exceed, the unadjusted percent change for the
most recent 12 months for which data is available, that is not subject to revision, in the Consumer Price Index
(CPI) for all urban consumers (CPI-U), “all items” for services, as determined by the Procurement Officer. The
Bureau of Labor and Statistics publishes this information on the web at www.bls.gov.

RELATIONSHIP OF THE PARTIES (JAN 2006): Neither party is an employee, agent, partner, or joint venturer of
the other. Neither party has the right or ability to bind the other to any agreement with a third party or to incur any
obligation or liability on behalf of the other party.

PRIVACY – WEB SERVICES (JAN 2006): You agree that any information acquired by you about individuals or
businesses that is available to you as a result of your performance of this contract shall not be retained beyond
the end of the term of the contract without the express written consent of the government. Such information shall
never be sold, traded, or released to another entity, including affiliates, and shall not be used for any purpose
other than performing this contract. Upon request, contractor shall provide written confirmation of compliance with this clause.

TERM OF CONTRACT – EFFECTIVE DATE / INITIAL CONTRACT PERIOD (JAN 2006): The effective date of this contract is the first day of the Maximum Contract Period as specified on the final statement of award. The initial term of this agreement is one year from the effective date. Regardless, this contract expires no later than the last date stated on the final statement of award.

SHIPPING / RISK OF LOSS (JAN 2006): F.O.B. Destination. Destination is the shipping dock of the Using Governmental Units’ designated receiving site, or other location, as specified herein. (See Delivery clause) [07-7B220-1]

TERM OF CONTRACT – OPTION TO RENEW (JAN 2006): At the end of the initial term, and at the end of each renewal term, this contract shall automatically renew for a period of one year, unless contractor receives notice that the state elects not to renew the contract at least thirty (30) days prior to the date of renewal. Regardless, this contract expires no later than the last date stated on the final statement of award.

TERM OF CONTRACT – TERMINATION BY CONTRACTOR (JAN 2006): Contractor may terminate this contract at the end of the initial term, or any renewal term, by providing the Procurement Officer notice of its election to terminate under this clause at least 180 days prior to the expiration of the then current term. [07-7B250-1]

TERMINATION FOR CONVENIENCE (JAN 2006):

(1) Termination. The Procurement Officer may terminate this contract in whole or in part, for the convenience of the State. The Procurement Officer shall give written notice of the termination to the contractor specifying the part of the contract terminated and when termination becomes effective.

(2) Contractor’s Obligations. The contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the contractor will stop work to the extent specified. The contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. The contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The Procurement Officer may direct the contractor to assign the contractor’s right, title, and interest under terminated orders or subcontracts to the State. The contractor must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

(3) Right to Supplies. The Procurement Officer may require the contractor to transfer title and deliver to the State in the manner and to the extent directed by the Procurement Officer: (a) any completed supplies; and (b) such partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (hereinafter called “manufacturing material”) as the contractor has specifically produced or specially acquired for the performance of the terminated part of this contract. The contractor shall, upon direction of the Procurement Officer, protect and preserve property in the possession of the contractor in which the State has an interest. If the Procurement Officer does not exercise this right, the contractor shall use best efforts to sell such supplies and manufacturing materials in a accordance with the standards of Uniform Commercial Code Section 2-706. Utilization of this Section in no way implies that the State has breached the contract by exercise of the Termination for Convenience Clause.

(4) Compensation. (a) The contractor shall submit a termination claim specifying the amounts due because of the termination for convenience together with cost or pricing data required by Section 11-35-1830 bearing on such claim. If the contractor fails to file a termination claim within one year from the effective date of termination, the Procurement Officer may pay the contractor, if at all, an amount set in accordance with Subparagraph (c) of this Paragraph.

(b) The Procurement Officer and the contractor may agree to a settlement and that the settlement does not exceed the total contract price plus settlement costs reduced by payments previously made by the State, the proceeds of any sales of supplies and manufacturing materials under Paragraph (3) of this clause, and the contract price of the work not terminated;
(c) Absent complete agreement under Subparagraph (b) of this Paragraph, the Procurement Officer shall pay the contractor the following amounts, provided payments agreed to under Subparagraph (b) shall not duplicate payments under this Subparagraph:

(i) contract prices for supplies or services accepted under the contract;

(ii) costs reasonably incurred in performing the terminated portion of the work less amounts paid or to be paid for accepted supplies or services;

(iii) reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders pursuant to Paragraph (2) of this clause. These costs must not include costs paid in accordance with Subparagraph (c)(ii) of this paragraph;

(iv) any other reasonable costs that have resulted from the termination. The total sum to be paid the contractor under this Subparagraph shall not exceed the total contract price plus the reasonable settlement costs of the contractor reduced by the amount of payments otherwise made, the proceeds of any sales of supplies and manufacturing materials under Subparagraph (b) of this Paragraph, and the contract price of work not terminated.

(d) Contractor must demonstrate any costs claimed, agreed to, or established under Subparagraphs (b) and (c) of this Paragraph using its standard record keeping system, provided such system is consistent with any applicable Generally Accepted Accounting Principles.

(5) Contractor’s failure to include an appropriate termination for convenience clause in any subcontract shall not (i) affect the state’s right to require the termination of a subcontract, or (ii) increase the obligation of the state beyond what it would have been if the subcontract had contained an appropriate clause.

Records retention & right to audit: the state shall have the right to audit the books and records of the contractor as they pertain to this contract, both independent of, and pursuant to, s.c. code section 11-35-2220. Such books and records shall be maintained for a period of three (3) years from the date of final payment under the contract.

The state may conduct, or have conducted, performance audits of the contractor. The state may conduct, or have conducted, audits of specific requirements of this bid as determined necessary by the state.

Pertaining to all audits, contractor shall make available to the state access to its computer files containing the history of contract performance and all other documents related to the audit. Additionally, any software used by the contractor shall be made available for auditing purposes at no cost to the state.
