## EGR 104 Engineering Technology Foundations

Lec: 2.0 Lab: 3.0 Credit: 3.0

This problem-based course introduces the student to fundamental concepts of electrical, mechanical, thermal, fluids, optical and material systems related to engineering technology. Workplace readiness skills such as laboratory safety, communications and teamwork are integrated into the course.

### **Prerequisite**

MAT 032

or appropriate test score

### **Course Offered**

Fall

Spring

Summer

### **Grade Type**

Letter Grade

### **Division**

Engineering and Construction
