2020-2021 TTC Catalog

General Technology - Barbering

Associate in Applied Science in General Technology

Barbering Career Path

64 Credit Hours

The General Technology major allows students to select course work necessary to become multi-skilled technicians. In addition to completing the college's core curriculum, students also complete course work in at least two technical areas. The following is an example of a career path available. The secondary paths may be substituted for courses in other programs' primary path. Interested students should talk with their advisors.

This career path prepares students for employment as barbers. It emphasizes service skills necessary for salon/shop and spa employment. The program also prepares students to take their licensure exams.

General Education Core Requirements

REQ SSC	Select from [Behavioral/Social Sciences](#)	3
REQ COM	Select from [Communication](#)	3
