## EGT 258 Applications of CAD

Lec: 2.0 Lab: 3.0 Credit: 3.0

This course is the study of the use of CAD within the different drafting and design fields. Students will complete CAD projects for various fields which may include architectural, civil, mechanical, HVAC, and electrical. Application of parametric modeling skills learned from this and prerequisite courses are to be demonstrated in assigned projects.

### **Prerequisite**

EGT 251

### **Course Offered**

Spring

### **Grade Type**

Letter Grade

### **Division**

Engineering and Construction
