

2022-2023 TTC Catalog

IST 205 Cisco Advanced Routing

Lec: 3.0 Lab: 0 Credit: 3.0

This course is a study of the concepts and technologies of extending IP addresses, routing principles, scalable routing protocols, managing traffic and access, and building and optimizing scalable Internetworks. The course puts emphasis on expanding network capabilities. The course focuses on learning using technologies such as wireless networks, advanced routing, and network redundancy to ensure high availability in enterprise networks. This course helps prepare students for careers as associate-level Cybersecurity Analysts and for the Cisco Certified Network Associate in Cyber Operations certification exams.
