2023-2024 TTC Catalog

ENG 260 Advanced Technical Communications

Lec: 3.0 Lab: 0 Credit: 3.0

This course develops skills in research techniques and increases proficiency in written and oral technical communications by focusing on all phases of the preparation of a formal, fully documented technical project. Since it requires the ability to do independent problem solving in the student's major area of study, the course is designed for students who are near the end of their programs.

Prerequisite
