

2023-2024 TTC Catalog

EGT 261

Lec: 3.0 Lab: 3.0 Credit: 4.0

This course includes the application of fundamental methods for designing 3D parametric models that can be easily modified to fit changing requirements. Students also learn techniques to test the movement of parts within an assembly and simulation procedures to test model strength and integrity.

Prerequisite

EGT 258

Course Offered

Spring

Grade Type

Letter Grade

Division

Engineering and Construction
