

2025-2026 TTC Catalog

Computer Technology - Information Systems Specialist

Associate in Applied Science in Computer Technology

Information Systems Specialist Career Path

60 Credit Hours

This program prepares students for careers in a variety of information technology areas. It gives students a foundation in computer hardware, computer applications, computer programming, the Internet and computer networking. Information systems administrators are involved in many different aspects of computer technology and can expect to employ their skills in a variety of ways to assist all computer users in commercial settings.

Students can earn only one Computer Technology degree in a single career path.
