TTC’s Summer Camp Schedule
June 11-Aug. 3, 2018
What’s New!

Trident Technical College is pleased to host our annual Kids’ College and Teen University summer camps. Camps are offered weekly from June 11-Aug. 3, 2018 for youth ages 7-17. Each year, we diversify our offerings and present innovative, exciting camps that stimulate your child’s imagination and inspire him or her to try new experiences. Check out some of our new initiatives this year!

Teen University Filmmaking Academy

Join us for the inaugural year of Tech Flix Bootcamp to explore the creative side of the film industry. Work alongside Trident Tech’s real-life media team in our professional, state-of-the-art labs and facilities.

Take individual camps to learn skills that help you in your own projects. Take all six camps to experience the entire filmmaking process from start to finish. Plus, if you sign up for five camps, you can take the sixth camp at 50 percent off.

Each camp contributes to a short film product completed at the end of June. Filmmaking Academy camps are fast-paced and fun! No previous experience needed; our skilled teaching staff guides students of all ability levels.

Camp offerings include: Movie Masks and Makeup; Set Design; Acting for Film; Sound for Film; Film Editing; and Film Production. For more information, see pg. 31.

Teen University Music Academy Week

This one-week summer music experience (June 11-15, daily from 8:30 a.m.-4:30 p.m.) at TTC’s Palmer Campus in downtown Charleston explores the intricacies of playing in small music ensembles. It is designed for music students (ages 12-17) studying woodwinds, brass and percussion instruments. To gain the most from the Music Academy Week experience, campers must have completed at least one year of formal music education as part of a traditional band program and/or through private lessons.

Music Academy Week engages, educates and inspires young musicians through the power of music and music making. Campers engage in the shared experience of playing chamber music through a week of individual and small group coaching, masterclasses and workshops, and performances.

Enroll for Music Academy Week online at www.tridenttech.edu/ce. Then email a video introduction with your registration to teenumusicacademyweek@gmail.com. Your video should include: your name and age; number of years of music experience you have and how long you have been playing an instrument; why you would like to participate in Music Academy Week; and a one or two minute playing sample of your choice. For more information, see pg. 26.

Camps for Adults – NEW!
Make-it Take-it Workshops 38
Exploration Workshops 39
Welcome to Kids’ College and Teen University at Trident Technical College!

We are pleased to offer a variety of educational opportunities to build on your children’s imagination, creativity and talent as they experience Trident Technical College’s (TTC) 21st year of summer camps. Kids’ College programs are geared towards children ages 7-11 and Teen University is programmed specifically for teens and preteens ages 12-17.

New this year, we are offering camps for adults. Drop off your students at their camps and then spend a carefree morning or afternoon creating and exploring. (See pg. 38)

Summer camps open for registration on Feb. 15, 2018.

Registration
Don’t wait until the last minute to register. Make sure your child has a summer to remember!

• Visit www.tridenttech.edu/ce/programs/summer-camps to browse program information and links to the registration page.

• Provide the camper’s information and Social Security number – not the parent’s information.

• Payment must be made at the time of registration.

• Make sure the college has your correct email and telephone number on file when you register.

• When registering online, you may now register all of your children on one “household” account.

Waiting List
No seats available in the camp you want? Place your child on the Summer Camps Waiting List. The “waiting list” option appears in lieu of the “add to cart” option when a class is at capacity.

Camp Locations:
The location is designated in the course code/date line underneath each camp description.

• BC=Berkeley Campus, Moncks Corner
  1001 S. Live Oak Dr. (Highway 17-A), Moncks Corner, SC 29461
• MC=Main Campus, North Charleston
  7000 Rivers Ave., North Charleston, SC 29406

• PC=Palmer Campus, downtown Charleston
  66 Columbus St., (downtown) Charleston, SC 29403

Camp Times:
Sessions are available from 8:30 a.m.-noon and 1-4:30 p.m. A select number of camps are offered all day. But any camper can stay all day by signing up for both a morning camp and afternoon camp. All campers attending all day must bring a lunch. Campers eat in a supervised designated area. Campers changing building locations during the day are escorted by a TTC staff member. Children are supervised during lunch. Microwave/refrigeration access is not available.

Snack/Break
A 15-minute break is scheduled every day, morning and afternoon. Campers are asked to bring a snack and drink except for those attending the culinary and pastry camps.

Allergies
If a student has food or other allergies, please be aware that TTC does not guarantee an allergen-free environment. Culinary camp recipes may contain nuts, nut oils, shellfish, gluten, dairy, produce and other food allergens.

Drop-Off
Parents/guardians must escort their children to and from the classroom and sign them in and out each day. Please drop off
It is the policy of Trident Technical College that no discrimination on the grounds of race, color, disability, religion, gender, sexual orientation, age, marital status, veteran status, gender identity, pregnancy, or national or ethnic origin will exist in any area of the college.

Summer Camps Scholarship Fund

Did you know that each year, Trident Technical College is able to provide a limited number of scholarships to low-income youth so they can experience Kids’ College and Teen University summer camps? These students may come from a household that has a very low fixed-income, their parent(s) or legal guardian may be struggling to make ends meet or they may be in a foster care situation.

There are a variety of reasons why some youth need assistance through this important program. But it is only made possible through support from generous donors such as you. Any size donation can help.

Future TTC Students

A machine that cuts the crust off your bread and a comb that is shaped for your head are just a couple of things that 9-year-old George Holseberg has invented. And that was before he came to TTC’s Kids’ College summer camp, Tinkering on the Edge of Innovation.

The camp was the perfect fit for George and his friend Sam Wilson, who attended with him in August. Sam, who aspires to be a scientist, says he loves to take things apart to see how they work. He keeps notes and watches the show “How it’s Made” on television with his dad. George says he would like to be an inventor because, “It’s a thrill and accomplishment to take something that is really hard to do and make it easier.”

The boys chose to pop a balloon using a ramp/inclined plane, a pulley and a lever. When their parents were invited to watch the kids demonstrate all of their projects, their passion for the project was clear. As the kids showcase all of their projects, their parents are very pleased with the variety of camps offered at Kids’ College. Lynda says, “Sam is a very active kid, and it is nice to have something that engages him so much.”

George and Sam came to the TTC Kids’ College camp in 2016 for the first time and couldn’t wait to come back again this year. They both loved the Junior CSI camp, where they learned to take fingerprints, and the Mind Your Manners camp, which George says he really didn’t want to attend but still had fun.

George’s parents Lynda and Stephen Holseberg are very pleased with the variety of camps offered at Kids’ College. Lynda says, “From manners to music to culinary arts, you have covered a lot of bases,” and Stephen adds, laughing, “We have had to run him back through the camp, too, but I think he forgot a few things.”
