

2018-2019 TTC Catalog - Information Systems Technology (IST)

IST 161 - Introduction to Network Administration

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is an introductory study of networking operating system administration. Techniques of installation and administration of a networking operating system will be included. This course will focus on Microsoft Desktop Administration., This course covers the objectives of the associated Microsoft certification exam.

Grade Type: Letter Grade

Division: Business Technology

IST 162 - Introduction to Workstation Networking Administration

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is an introductory study of the administration of single and multiple domain networks. Tasks will include handling user group accounts, resource management, permissions, ownership assignments, printing, security and backup. This course covers the objectives of the associated Microsoft certification exam.

Prerequisite

IST 161

Grade Type: Letter Grade

Division: Business Technology

IST 163 - Introduction to Server Networking Configuration Administration

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

a local area network (LAN). Tasks include system design, installation and configuration, system policies, partitions, files, volume, and support of applications running under the server software. Additionally, remote access service (RAS), internet service and compatibility issues will be introduced. This course covers the objectives of the associated Microsoft certification exam.

Prerequisite

IST 165

and

IST 263

Grade Type: Letter Grade

Division: Business Technology

IST 164 - Implementing Windows Network Infrastructure Services

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of the fundamentals of installing, configuring and utilizing Windows networking services while exploring techniques used to design, create and implement secure communications across the networks, which may consist of multiple vendors. Emphasis is also provided on support of remote users and central management concepts. This course covers the objectives of the associated Microsoft certification.

Prerequisite

IST 165

Grade Type: Letter Grade

Division:

IST 165 - Implementing and Administering Windows Directory Services

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of directory services covering the planning, design, installation, configuration and administration of a network directory structure. This course covers the objectives of the associated Microsoft certification exam.

Grade Type: Letter Grade

Division: Business Technology

IST 166 - Network Fundamentals

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of local area networking concepts through discussions on connectivity, communications and other networking fundamentals. The course is designed to prepare the student to be successful in completing industry network fundamental certification exams. This course covers the content included in the CompTIA Network + certification exam.

Grade Type: Letter Grade
Division: Business Technology

IST 190 - Linux Essentials

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course provides students with the fundamental knowledge and concepts of the Linux operating system, including command line functions, file systems, user and group administration, process management, text editors, and network applications. This course helps students prepare for the CompTIA Linux+ certification exam.

Grade Type: Letter Grade
Division: Business Technology

IST 191 - Linux System Administration

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course provides students with the skills necessary to administer a Linux system, including hardware/software configuration, user and group administration, Linux network configuration, and file system management. This course helps students prepare for the RedHat Certified Systems Administrator (RHCSA) certification exam.

Prerequisite

IST 190

Grade Type: Letter Grade
Division: Business Technology

IST 192 - Linux Network Applications

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course provides students with the skills necessary to deploy and administer the core networking services in a Linux system, such as Apache Web Server, Samba File Server, BIND Domain Name Service, NFS and others. This course helps students prepare for the RedHat Certified Engineer (RHCE) certification exam.

Prerequisite

IST 191

Grade Type: Letter Grade
Division: Business Technology

IST 193 - Linux Security Administration

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course will provide students with the skills necessary to implement and administer basic LINUX security policies, including authentication, securing network applications, system monitoring, encryption, and others. This course covers Linux security and introduces the student to open-source Cloud computing solutions.

Prerequisite

IST 192

Grade Type: Letter Grade

Division: Business Technology

IST 196 - Cloud Storage Fundamentals

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is the study of network and cloud based storage technologies, cloud computing networks, and data management processes in a storage environment. The course prepares students to provide network and cloud based storage support to businesses. This course will also help students prepare for the EMC Proven Professional Certification (EMCISA) exam.

Prerequisite

IST 166

or

IST 220

Grade Type: Letter Grade

Division: Business Technology

IST 198 - Cloud Essentials

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of Cloud computing as a framework for providing network access to shared computing resources including storage, network, server and virtualization infrastructures.

Prerequisite

IST 253

Grade Type: Letter Grade

Division: Business Technology

IST 201 - Cisco Internetworking Concepts

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of current and emerging computer networking technology. Topics include safety, networking, network terminology and protocols, network standards, LANs, WANs, OSI model, cabling tools, Cisco routers, router programming, star topology, IP addressing, and network standards. This helps prepare students for the Cisco Certified Entry Network Technician (CCENT) credential.

Prerequisite

IST 166

or

IST 220

Grade Type: Letter Grade

Division: Business Technology

IST 202 - Cisco Router Configuration

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of LANs, WANs, OSI model, Ethernet, token ring, FDDI, TCP/IP protocol, dynamic routing, and the network administrator's role and function. This helps prepare students for the Cisco Certified Entry Network Technician (CCENT) credential.

Prerequisite

IST 201

Grade Type: Letter Grade

Division: Business Technology

IST 203 - Advanced Cisco Router Configuration

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of configuring Cisco routers. This helps prepare students for the Cisco Certified Network Associate in Routing and Switching (CCNA/RS) credential.

Prerequisite

IST 202

Grade Type: Letter Grade

Division: Business Technology

IST 204 - Cisco Troubleshooting

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of troubleshooting network problems. This helps prepare students for the Cisco Certified Entry Network Associate in Routing and Switching (CCNA/RS) credential.

Prerequisite

IST 203

Grade Type: Letter Grade

Division: Business Technology

IST 205 - Cisco Advanced Routing

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of the concepts and technologies of extending IP addresses, routing principles, scalable routing protocols, managing traffic and access, and building and optimizing scalable Internetworks. The course puts emphasis on expanding network capabilities. The course focuses on learning using technologies such as wireless networks, advanced routing, and network redundancy to ensure high availability in enterprise networks. This helps prepare students for the Cisco Certified Network Professional (CCNP) in Routing and Switching.

Prerequisite

IST 204

Grade Type: Letter Grade

Division: Business Technology

IST 206 - Cisco Remote Access

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of building a remote access network to interconnect central sites to branch offices and home office/telecommuters, control access to the central site and maximize bandwidth utilization over the remote links. This helps prepare students for the Cisco Certified Network Associate (CCNA) Security credential.

Prerequisite

IST 202

Grade Type: Letter Grade

Division: Business Technology

IST 207 - Cisco Multilayer Switching

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a detailed study of how routing and switching technologies work together. Included is an in-depth analysis of combining layer 2 and layer 3 switching technologies. This course expands knowledge of network hierarchical design with emphasis on various WAN protocol configuration, current Broadband technologies, network security, and troubleshooting. This helps prepare students for the Cisco Certified Network Professional (CCNP) in Routing and Switching.

Prerequisite

IST 204

Grade Type: Letter Grade

Division: Business Technology

IST 208 - Cisco Internetwork Troubleshooting

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of how to perform fundamental hardware maintenance and advanced troubleshooting tasks on Cisco routers and switches. The course emphasizes installing, configuring, and managing IP telephony, including VOIP and digital technologies a unified communication system. This helps prepare students for the Cisco Certified Network Associate (CCNA) Voice credential.

Prerequisite

IST 204

Grade Type: Letter Grade

Division: Business Technology

IST 209 - Fundamentals of Wireless LANs

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This introductory course is the study of design, installation, configuration, operations and troubleshooting of wireless LANs. The course includes an overview of wireless technologies, standards, devices, security, design and best practices, emphasizing real-world applications and skills. This helps prepare students for the Cisco Certified Network Associate (CCNA) wireless credential.

Prerequisite

IST 204

Grade Type: Letter Grade

Division: Business Technology

IST 220 - Data Communications

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of the fundamentals of data communications. Basic signaling, networking and various transmission media are covered.

Grade Type: Letter Grade

Division: Business Technology

IST 235 - Handheld Computer Programming

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a survey of the techniques of rapid application development for handheld devices. Topics include setup of development environment, creation and deployment of programs, and design strategies to overcome memory and interface limitations. The focus of the course will be the development of software for the Android mobile phone.

Prerequisite

IST 239

with a minimum grade of C.

Grade Type: Letter Grade

Division: Business Technology

IST 239 - Datum and JavaScript

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course includes concepts and skills for developing dynamic functionality and interactivity for websites using JavaScript: variables, operators, conditionals, functions, objects (image and form), properties, methods, cookies, frames and arrays. This course covers the basics of the JavaScript language, how to place JavaScript into an HTML file and advanced JavaScript topics such as event handlers, arrays, forms and cookies.

Prerequisite

CPT 162

or

ARV 227

and

CPT 114

or

CPT 167

Grade Type: Letter Grade

Division: Business Technology

IST 250 - Network Management

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of planning, organizing and controlling telecommunication functions for the potential telecommunications manager. It emphasizes current situations and techniques. This course covers the VMware virtualization objectives associated with the VMware Certified Professional (VCP) certification exam.

Prerequisite

IST 253

Grade Type: Letter Grade

Division: Business Technology

IST 253 - LAN Service and Support

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course focuses on installing, maintaining and troubleshooting local area networks in a lab environment. This course covers an introduction to virtualization technologies and vendors including VMware, Microsoft and Citrix.

Grade Type: Letter Grade

Division: Business Technology

IST 260 - Network Design

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of the processes and techniques required to identify the most attractive design solution of a telecommunications network combining creativity, rigorous discipline, analysis, and synthesis while emphasizing the solution in terms of cost and performance.

Prerequisite

IST 161

and

IST 190

and

IST 202

and

IST 220

and

Corequisite

IST 293

Grade Type: Letter Grade

Division:

IST 263 - Designing Windows Network Security

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is an advanced study of security features of networks including authentication protocol, public key infrastructure, IPSEC and certificate servers. This course covers Microsoft enterprise level server administration. This course covers the objectives of the associated Microsoft certification exam.

Prerequisite

IST 164

and

IST 165

Grade Type: Letter Grade

Division: Business Technology

IST 265 - Designing a Windows Directory Services Infrastructure

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of directory services infrastructure design including design of a domain structure, tree and forest structures, organizational unit structure and other related topics. Students learn the skills to plan, configure, and implement the Windows Server services, such as server deployment, server virtualization, and network access and infrastructure. This course covers the objectives of the associated Microsoft certification exam.

Prerequisite

IST 163

and

IST 165

Grade Type: Letter Grade

Division: Business Technology

IST 268 - Computer Forensics

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course provides students with a foundational knowledge in computer forensics investigation. Students are introduced to the skills, tools and methods used to gather, document and handle electronic evidence.

Prerequisite

CPT 209

Grade Type: Letter Grade

Division: Business Technology

IST 269 - Digital Forensics

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course examines advanced technical aspects of digital computer evidence to include detection, collection, identification and preservation. Emphasis is placed on specific tools and methods for extracting deleted or destroyed computer-related evidence.

Prerequisite

IST 268

Grade Type: Letter Grade

Division: Business Technology

IST 272 - Relational Database

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course provides a comprehensive foundation in both SQL and relational database design and implementation. Dynamic and embedded SQL programming techniques are emphasized. Additional topics include forms developer, triggers, stored procedures and PL/SQL programming.

Prerequisite

CPT 202

Grade Type: Letter Grade

Division: Business Technology

IST 274 - Database Administration

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of the duties and responsibilities of a database administrator. The course covers setting up, maintaining, and troubleshooting a distributed, multi-user database.

Prerequisite

IST 272

Grade Type: Letter Grade

Division: Business Technology

IST 286 - Technical Support Internship I

Lec: 0 **Lab:** 9.0 **Credit:** 3.0

This course is an entry-level technical support/help desk internship. Students intern at the college's help desk and provide support to faculty and staff. Students will participate in weekly evaluation sessions of calls and solutions.

Prerequisite

CPT 209

and

CPT 210

and

IST 161

and

departmental approval.

Grade Type: Letter Grade

Division: Business Technology

IST 287 - Technical Support Internship II

Lec: 0 **Lab:** 9.0 **Credit:** 3.0

This course is an intermediate-level technical support/help desk internship. Students intern at the college's help desk and provide support to faculty and staff. The student prepares a portfolio for submission.

Prerequisite

IST 286

and

departmental approval.

Grade Type: Letter Grade

Division: Business Technology

IST 290 - Special Topics in Information Sciences

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course covers special topics in information sciences technologies.

Departmental approval.

Grade Type: Letter Grade

Division: Business Technology

IST 291 - Fundamentals of Network Security I

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of introductory levels of security processes based on a security policy, emphasizing hands-on skills in the area of secure perimeter, security connectivity, security management, identity services and intrusion detection. The course prepares students to manage network security. This course covers the objectives associated with the CompTIA Advanced Security Practitioner (CASP) certification exam.

Prerequisite

IST 293

Grade Type: Letter Grade

Division: Business Technology

IST 292 - Fundamentals of Network Security II

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course is a study of advanced security processes based on a security policy, emphasizing hands-on skills in the area of secure perimeter, security connectivity, security management, identity services and intrusion detection. The course prepares students to install/configure secure firewalls. This course leverages skills and knowledge in the Network and Cybersecurity curriculum to build, document and demonstrate a secure information technology infrastructure

Prerequisite

IST 293

Grade Type: Letter Grade

Division: Business Technology

IST 293 - IT and Data Assurance I

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course introduces the basics of network security. Topics covered will include network vulnerabilities and threats, security planning, security technology, network security organization, as well as legal and ethical issues related to network security. This course will provide coverage of the objectives associated with the CompTIA Security+ certification.

Grade Type: Letter Grade

Division: Business Technology

IST 294 - IT and Data Assurance II

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course introduces methods for attacking a network. Concepts, principles, tools and techniques for attacking and disabling a network will be covered in the context of understanding how to properly secure a network as a network administrator. This course will provide coverage of the learning objectives associated with the EC-Council Certified Ethical Hacker certification. Topics such as social engineering, physical security and logistics will also be discussed.

Prerequisite

IST 293

Grade Type: Letter Grade

Division: Business Technology

IST 298 - Advanced Cloud Computing

Lec: 3.0 **Lab:** 0 **Credit:** 3.0

This course covers advanced concepts of cloud computing. Topics include how to implement, administer and troubleshoot private and public cloud services, delivery models, virtualization infrastructures, storage and networks.

Prerequisite

IST 198

Grade Type: Letter Grade

Division: Business Technology
