

2018-2019 TTC Catalog

Management - Business Information Systems

Management - Business Information Systems

Associate in Applied Science in Management

Business Information Systems Career Path

69 Credit Hours

The Business Information Systems career path prepares students with the skills to be competitive in the emerging technologies and advances in business information systems and processes. The program provides students with a broad overview of various computer and information technologies needed in the 21st century business environment.

Students can earn only one Management degree in a single career path.
